

# NORDICSTAR MD3 E-VISIO

NordicStar / Multideck

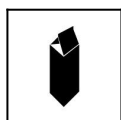

Chilled Vertical and Semivertical

BEST ENERGY CLASS\*

## Product Categories

Dairy  
products

Drinks

## Technical Features

High  
efficiency  
fans

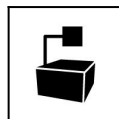

LED lighting

Off-cycle  
defrost

R744

Remote  
condensing  
unit

Ventilated

## NORDICSTAR MD3 E-VISIO

*NordicStar / Multideck*

Chilled Vertical and Semivertical

### Product Range

| NordicStar MD3 e-Visio  |                                                                                       |
|-------------------------|---------------------------------------------------------------------------------------|
| External length (mm)    | 1250, 2500                                                                            |
| External height (mm)    | 2010, 2210                                                                            |
| External depth (mm)     | 1460                                                                                  |
| Temperature range (°C)  | +2 to +4 °C                                                                           |
| Refrigerants            | R744 (CO2)                                                                            |

\*The information on the energy class (according to EU regulations 2019/2018 and EU 2019/2024) reported here refers to standard models and precise product configurations and set-ups. The site is based on the information available at the time of publication. As the energy class depends on the specific product configuration, despite the efforts made to ensure the greatest possible accuracy, the real data can differ significantly from the data declared here. For further information, we invite you to consult the European Product Database for Energy Labelling (EPREL) or to contact our Sales Office.
